Choose ^{the} Version ^{that's} Right ^{for} You

With four robust versions, there's one specifically designed to meet your organization's needs. Whether you are an owner or manager of a single spa or salon, you have multiple locations, or are a national chain, it's easy to see at a glance which one is right for your company

enviŝion

Envision, our flagship solution, is a perfect fit if you are operating a single salon or spa and are looking for a sophisticated, robust, feature-rich system, yet one that is incredibly easy-to-learn and use. At the center of the system is the industry's most powerful, feature-rich appointment calendar. We then encircled that with a full array of robust features and capabilities for everything from point of sale and client tracking, to marketing, sales reporting, gift card features and much more.

enviŝion **PREMIER**

Premier, our most comprehensive offering, is designed primarily for high-growth, fast-paced salons and spas that need powerful front and back office capabilities. Envision Premier delivers all the capabilities of our Envision solution plus accounting and payroll. With a full host of advanced capabilities including bill tracking and commission plans, Premier offers a fully integrated, all-in-one system for simplified, seamless information management.

enviŝion **ENTERPRISE**

For spas and salons that have many locations or are part of a national chain, you need highly specialized capabilities, particularly advanced reporting functions. Envision Enterprise is the answer. With its built in, multi-location features, Enterprise effectively manages each individual location, while providing powerful financial "roll up" capabilities and sales analysis functions. This is the solution that will provide regional or corporate executives with up-to-the-minute, big picture information about the full enterprise for more informed decision making.

enviŝion **SOLO**

Envision Solo was created specifically to support the needs of the independent operator. The perfect solution whether you work from home, own a one person shop, or rent a booth in a larger salon.

A Company Built Experience

Envision, from Ennoview, is one of the industry's leading software solutions for successfully managing all types of salons and spas, including traditional day spas, vacation spas, tanning salons, personal training and fitness businesses, massage therapy offices, and even the rapidly growing medical spa business.

The simple reason for our product's growing reputation as the software of choice? Because Envision was built by people with a unique combination of technology and salon and spa expertise.

The Ennoview team has all the technology expertise you would expect from a software development firm. However, when you add that knowledge to real-world, hands-on spa and salon ownership and management experience, you get an unbeatable combination. You get Envision.

No matter what type of spa or salon, no matter what size, our award-winning Envision software will help you:

- Enhance customer service
- Capture and drive additional revenue opportunities
- Control inventory and reduce product theft
- Increase productivity, reduce wasted time and effort
- Increase client retention

Powerful – Envision delivers the most robust software in the industry, hands down. Built by and for salon owners and managers, we centered our capabilities around a very powerful appointment calendar unparalleled by even the closest competitors. We then encircled that with the robust features and capabilities to make doing business easier and more profitable. Envision is the powerful engine to make your salon or spa run efficiently, simply and more profitably.

Intuitive – Envision's easy-to-learn, easy-to-use Windows environment, complete with icons and click and drag features, lets even those who have never used a computer before get started almost immediately. When employees are confident using a system, your entire business will be transformed into a streamlined, more efficient organization.

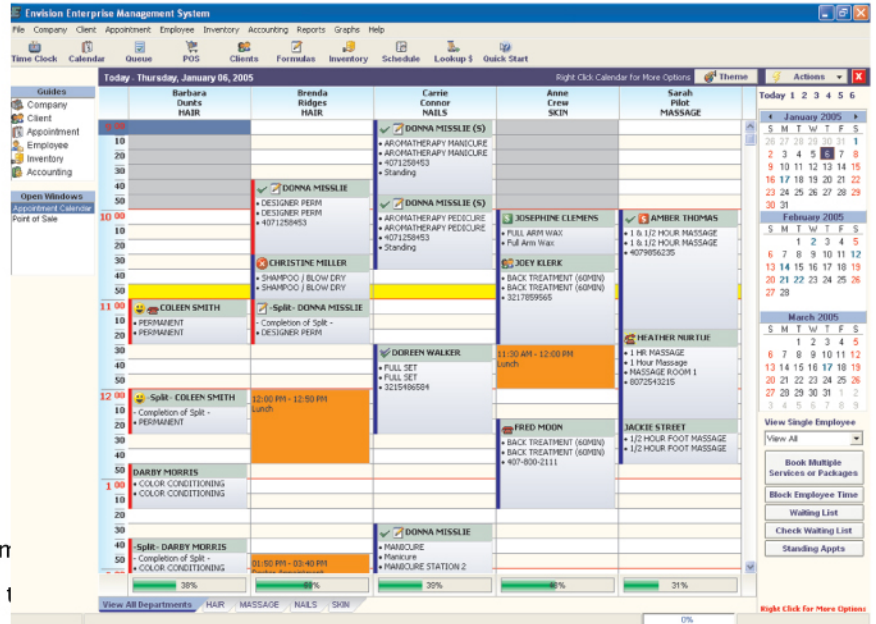

Accessible – Envision was built from scratch using Window's technology, and we take full advantage of what this powerful environment delivers including accessibility. With Envision, authorized staff members can access information online, from anywhere, at any time. You can receive instant updates, review schedules, send e-mail appointment confirmations, create and send out employee schedules, obtain up-to-the second sales information.

The Envision Difference

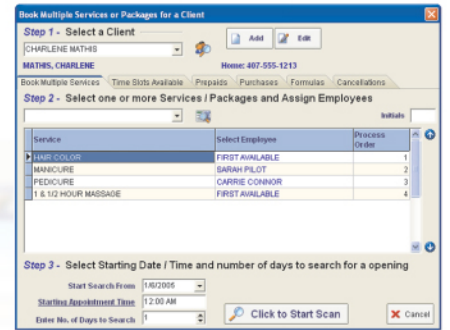

Powerful Appointment Calendar

Our appointment calendar is the heart and soul of Envision. It is the most comprehensive, intuitive and feature rich calendar in the industry. Here are just some of the things you can do with this versatile, powerful tool:

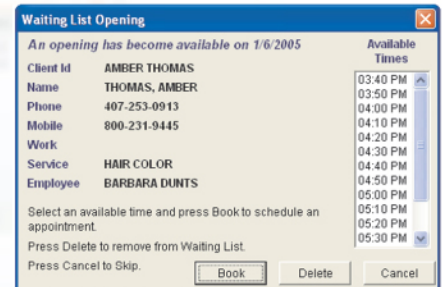

- Drag and drop appointments
- View daily and weekly schedules
- Waiting List
- Capabilities to handle walk-ins
- Standing appointments
- Double booking capability
- Track pre books and add-on services
- Choice of multiple confirmation methods
- Rapidly block time, edit appointments
- 5, 6, 10, 15, 20 and 30 minute appointment time increments
- Book and fill appointments during chemical processing
- Ability to email multiple appointment confirmations
- Track cancellations, no-shows, create booking restrictions
- Auto search and book available times for multiple appointments, packages
- Print client traveler schedules and work tickets with custom formulas

Setting the Spa & Salon Management Standard

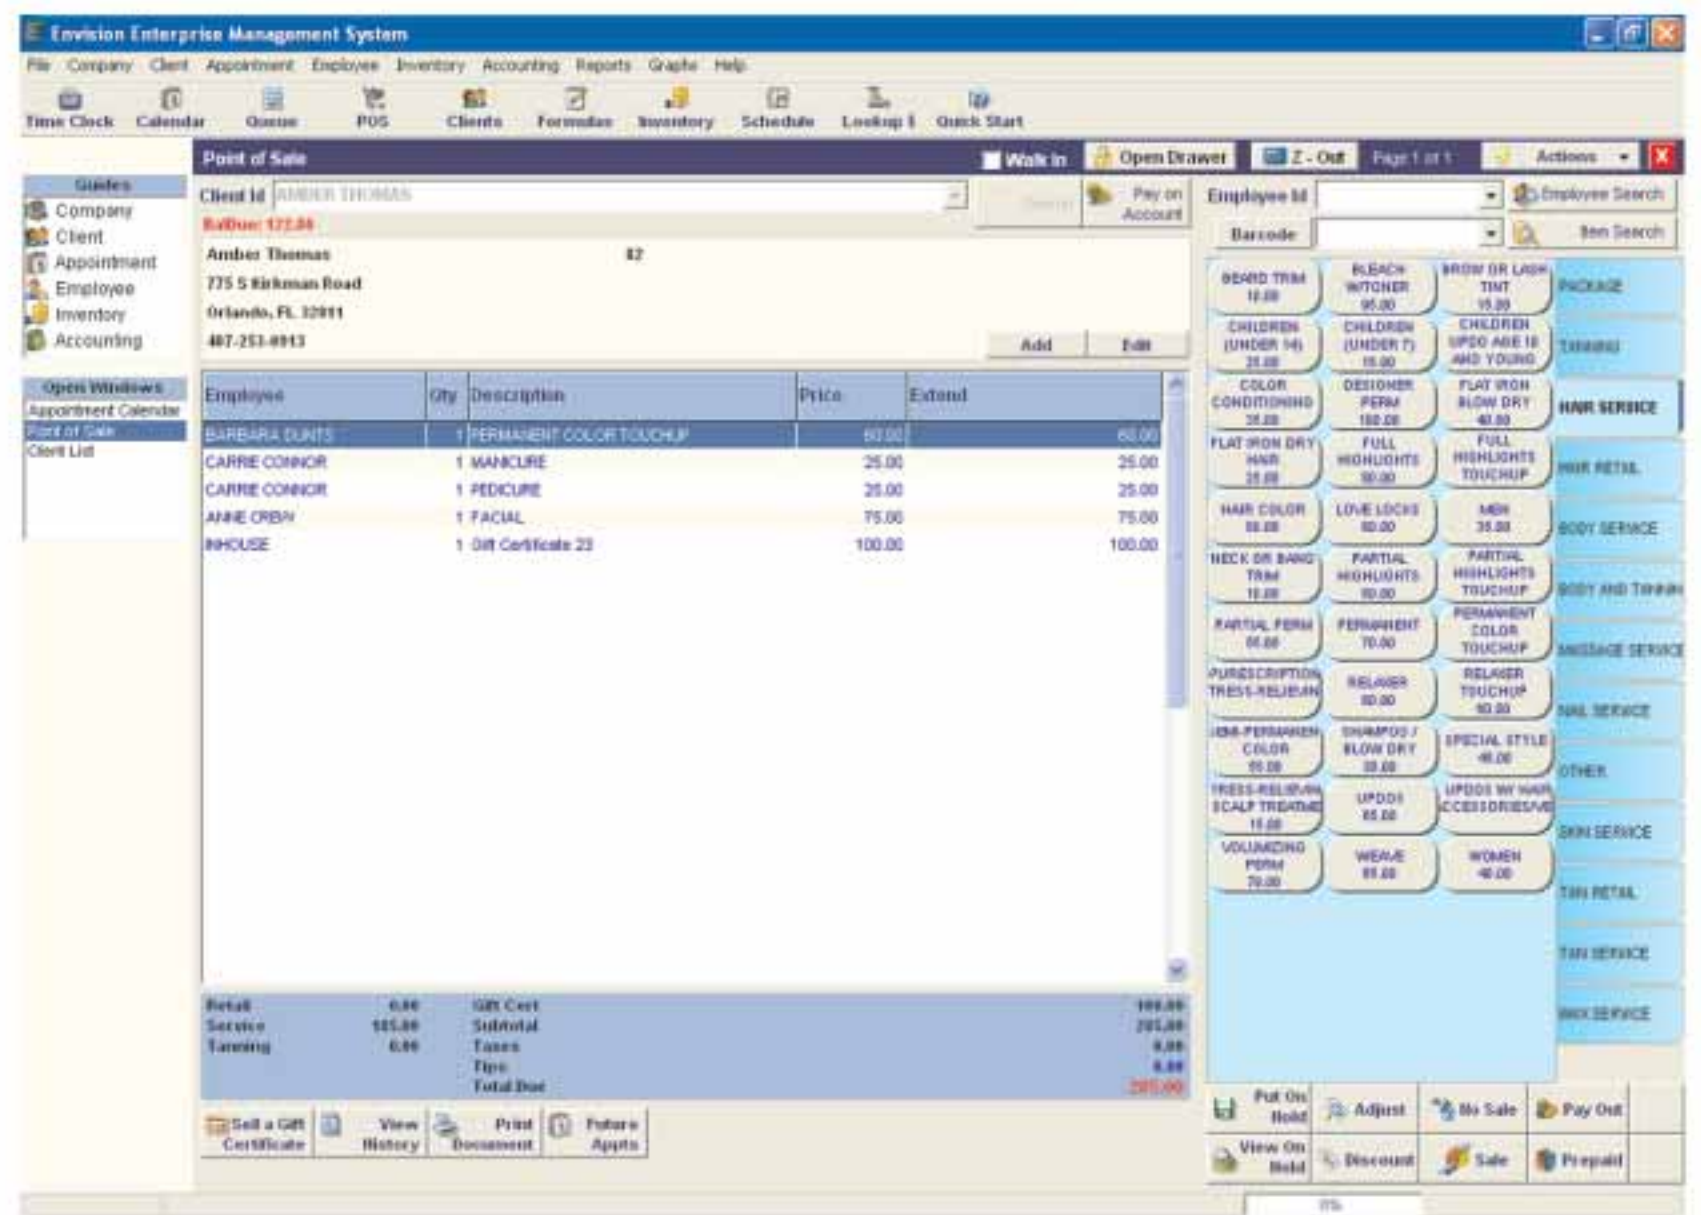

With its icons, drag-and-drop features and Window's environment, Envision leads the way in delivering cost-effective, incredibly easy to use solutions to businesses like yours worldwide. We take full advantage of the power of today's web-based technology to deliver real-time solutions to your business management challenges. Envision lets you focus on serving clients, expressing your creativity and being profitable instead of dealing with worrying about your software.

Effortless point of sale Capabilities

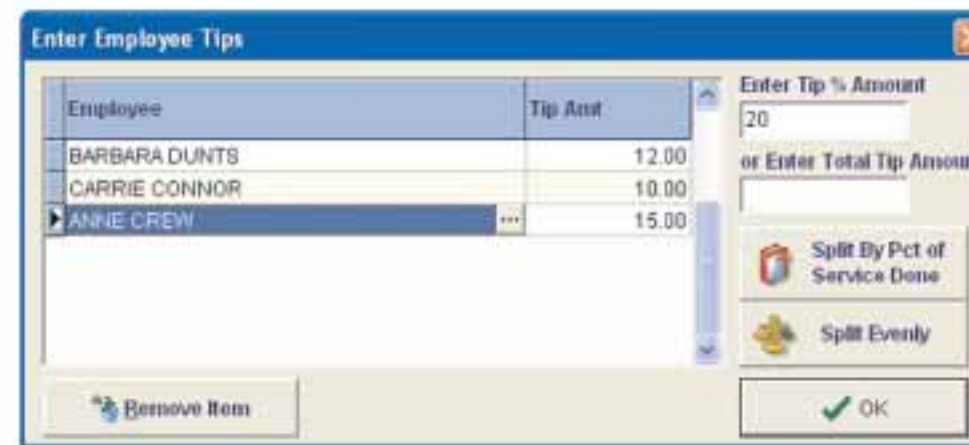

Our point of sale capabilities make taking care of your clients at the sales desk quick and effortless, not only for you, but for the client as well. Whether you are conducting a simple transaction or handling multiple transactions simultaneously, our intuitive point of sale capabilities will make any sales transaction efficient and uncomplicated.

Key features include:

- Track multiple service providers per ticket
- Easy to apply discounts, coupons and comp items
- Stores client service and product history
- Sell, redeem and track gift certificates
- Tracks pre-paid items
- Interfaces with barcode scanner, receipt printer, and electronic cash drawer
- Prints required documentation for medical spa treatments
- Multiple methods to handle tips
- "on-hold" feature maintains means you never lose your place or your data
- Easy end-of-day close out capabilities
- Touch screen compatible

Flexible Payment Options

Save Time.
Save Money.
Make Money.

We know you have better things to do with your time than trying to maneuver in restrictive software that doesn't do what you want, when you want to do it. And if you are still operating manually, it's time to shed the post-it-notes, the clunky paper appointment book and all the things that keep you from becoming the dynamic salon or spa you really want to be. It's time for Envision.

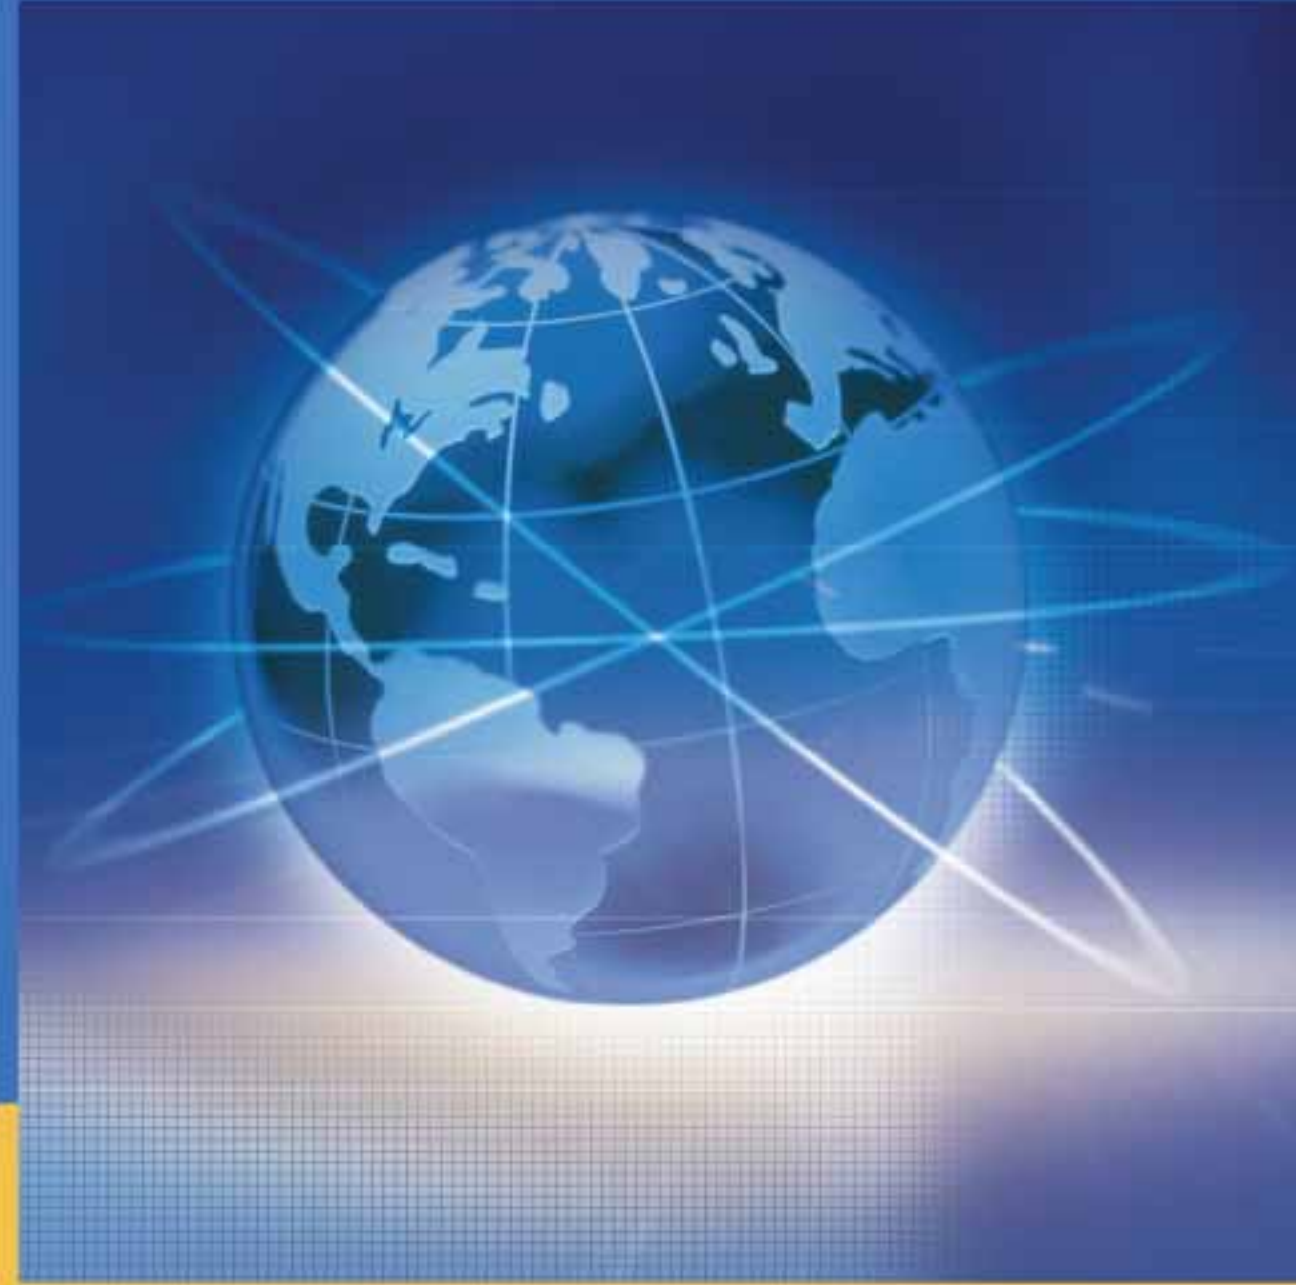

Envision is intuitive, fun, easy to use and easy to learn. It's full of all the capabilities and features to manage, even transform, your business into an efficient organization that has much more time to focus on keeping the clients you have, attracting new ones and ultimately, increasing revenue.

know your Clients

Businesses that know and understand the needs of their clients are always the most successful. That's why Envision delivers features and capabilities that make it easy to manage clients and attend to their unique needs.

- Complete product, service and gift certificate history
- Track birthdays, anniversaries, phone numbers, email addresses
- Take "before and after" photos for visual records
- Preferred stylists tracking
- Referral tracking capabilities
- Track formulas
- Set up master account for families

Comprehensive Franchise & Multiple Location Solutions

- Centralized Appointment Booking / Call Center
- Extensive Multi-Location Inventory Management
- Support Thin Client and Remote Desktop solutions
- Data Replication
- Reporting options by Location / Region or Company Wide

Superior Solutions Superior Software

Envision was designed to let you add features, functions and capabilities to the system that you want to accommodate the growth of your business, give you a competitive edge and enable you to adapt to new technology innovations at a pace that's right for you. That's why we continue to deliver an array of value-add solutions that will make your version of Envision even more efficient, robust and leading-edge.

These offerings include:

- Remote Access
- QuickBooks Interface
- Pocket PC Integration
- Pager Integration
- Credit Card Processing
- Online Appointments

Here's what our Clients say

"I own a 14-chair salon in Hawaii. I also manage the service department of a Honolulu-based computer company. In my 10+ years in the computer field, I have never dealt with a software manufacturer that listens to and responds to the customer as quickly as Ennoview...I have never worked with any company so focused on customer service as well as offering one of the best programs I have used to date.This program is the competitive edge that any salon with the desire to succeed should be running."

Brian Schwartz, Owner
Heads Up Salon
Wahiawa, Hawaii

"We took over an existing spa and beauty salon that had another [management software] system. We decided to install the Envision system because it had more features. Much to our surprise, we also purchased the best customer support I have ever seen. I would go as far as to say the only thing that surpasses the software in functionality and ease of use is the outstanding support!"

Luis Alegre, President
Elitespa Beauty Salon & Wax Institute
Coral Gables, Florida

"...In the short time we have been dealing with your company, the software has been developed greatly, the service and support you've offered has been nothing but excellent. I'd have no reservations in recommending Ennoview and your software."

Marc Charge, Owner
Michelle's Ultimate Image
Jacksonville, Florida

Committed to Service after the Sale

At Ennoview, we understand the importance of standing behind our products. That's why we pride ourselves on the high level of support we consistently deliver after the sale. It's important to us that together, we build a successful, long term partnership between our two businesses.

With a team ready to assist you with any of our solutions, we can show you how to maximize your use of Envision. We offer a comprehensive array of technical support, as well as training and education services to ensure you get the most out of your software investment .

As a full service provider, we can also serve as your single source to meet your hardware needs. Through partnerships with leading hardware providers, we can create a packaged solution featuring the right version of our software for your business, combined with the hardware components you need to get up and running quickly. These include point of sale equipment, bar code or credit card scanners, complete PC desktop systems, printers, receipt equipment and more.

With the power of Envision, backed by the knowledgeable professionals of Ennoview, you can take your business to new heights. It's time to imagine the possibilities. . .
